EDUCATION

B.E. - COMPUTER ENGINEERING

- Pravara Rural's Engineering College,
- Loni , A.Nagar , Maharashtra.
- GPA - 8.51
- 2022 - 2026

HIGHER SECONDARY EDUCATION

- New English School & Jr College,
- Baragaon Pimpri, Nashik, Maharashtra
- Percentage : 73.50%
- 2021 - 2022

SECONDARY EDUCATION

- New English School & Jr College,
- Baragaon Pimpri, Nashik, Maharashtra
- Percentage : 88.60%
- 2019 - 2020

SKILLS

- Languages:** Java, Javascript, SQL.
- Web Technologies:** HTML, CSS, React.js, Bootstrap.
- Frameworks & Tools:** SpringBoot, JDBC, RESTful APIs, Postman, Git & Github
- Databases:** Oracle, MySQL, H2 DB.
- Other Skills:** Responsive Web Designing, Communication Skills, Leadership & Team Management

LANGUAGES

- English
- Hindi
- Marathi

SUMMARY

I'm a Computer Engineering student working towards becoming a Java Full Stack Developer. I have hands-on experience with Java, Spring Boot, JDBC, Oracle DB, and React.js, and have built real-world projects like a billing system, an association website, and a hotel automation system. I'm a quick learner with strong communication skills, and I enjoy solving problems by writing clean, efficient code.

WORK EXPERIENCE

Java FullStack Intern

DEC 2024 - JAN 2025

TechnoGrowth Software Solutions Pvt. Ltd.

Location : Warje, Pune (offline)

- Developed and maintained full-stack web applications using Java, Spring Boot, Hibernate, JDBC, and MySQL for backend development.
- Designed and implemented dynamic front-end interfaces using Angular, HTML, CSS, Bootstrap, and JavaScript.
- Gained hands-on experience in Postman API testing

Java Developer Intern

FEB 2024 - MAR 2024

MotionCut Pvt. Ltd.

Mode : Online

- Gained hands-on experience in Core Java by developing beginner-friendly applications.
- Built a text-based adventure game, an expense tracker, a URL shortener, and a quiz application using Java.
- Strengthened knowledge of OOP principles, file handling, exception handling, and data structures.

PROJECTS

1. Billing System using React and SpringBoot

- link - [Click here to Checkout](#)
- Developed a full-stack billing system using Java, Spring Boot, and JDBC.
- Utilized H2 Database for local data storage and testing during development.
- Created modules for Inventory, and Billing.
- Designed a clean, responsive UI using React + Vite.

2. ASCII Association Website

- link - [Click here to Checkout](#)
- Designed and developed a fully responsive and interactive website for the ASCII Association under the Computer Engineering Department, aimed at showcasing technical and cultural events.
- Built modular and reusable UI components to display sections such as Event Overview, Competition Categories, Chief Guest Q&A, Gallery, and Winners Table.
- Embedded media content including images and videos, and configured custom favicon and proper file structuring for organized deployment.
- Collaborated using GitHub for version control, and followed clean code practices to ensure maintainability and scalability.
